Join us on Monday, August 26, for the next event in our Sage Advice Community Conversations series. We are excited to welcome the La Plata Police Department, which will present its initiative, Project Lifesaver. This is just one of the many ways the Police Department gives back to the community.

During this presentation, you'll learn how Project Lifesaver eases anxiety for families with loved ones diagnosed with dementia, autism or related conditions and disorders that could cause your loved one to elope or wander. They will also share details on how your loved ones can be part of this program.

This free event is open to the public and we require anyone involved with the caregiving of a loved one to register.
